Ed Hallett, Sales Manager & part-owner

How to  
improve your  
bottom line in  
December.

We supply no. 1  
grade Christmas  
trees & accessories  
& advice for retail  
success.

### Christmas trees –

- high sales volume
- boosts hardgood sales
- boosts store traffic

I offer attractive Christmas trees packaged either individually twine-wrapped or in pallet bales for forklift.

*“Christmas trees put your customers in a generous mood”.*

Ed Hallett

Noble firs – dark green or blue-green color, the most fun tree to decorate.

**Nordman firs** – most popular Christmas tree in Europe.

**Douglas fir** Christmas trees – they grow faster so are cheaper than Nobles but be careful if your weather goes well below freezing in Nov-Dec.

Traditional Mixed Wreaths - on our front door – our most ancient way of saying – **Welcome Home.** See our full line on the web.

**Grand fir** Christmas trees – they have glossy light green needles – add tree lights and the tree glows. Hardy to cold temps – popular in Colorado and Utah – and Idaho.
